Yano, J., see Ogura, K. 47
Youn, Y.Z., Lee, D.Y., Woo, B.W., Shim, J.G., Chae, S.A. and Shim, S.C.
Ruthenium-catalyzed synthesis of 1-substituted-3-hydroxyperhydroazepines 39
Yun, H.G., see Chung, J.S. 199
Zanoni, R., see Lenarda, M. 243
Zieliński, J.
Interaction of carbon monoxide with supported nickel catalysts 187

Subject Index

acetaldehyde
Synthesis of acrolein by vapor phase condensation of formaldehyde and acetaldehyde over oxides loaded zeolites 175
acrolein
Synthesis of acrolein by vapor phase condensation of formaldehyde and acetaldehyde over oxides loaded zeolites 175
activation of catalyst
Relationship between solvent effects and catalyst activation method in a clay-catalysed Diels–Alder reaction 305
adsorption structures
Elucidation of the mechanism of elimination reactions with deuterium-labelled compounds 311
alcohols
Ruthenium(II)-catalyzed oxidation of alcohols by persulfate 85
aldehydes
Rearrangement reactions of 1,2-alkene oxides over zeolites Improved selectivity in aldehydes by the use of silanated offretites 297
aldol
Synthesis of acrolein by vapor phase condensation of formaldehyde and acetaldehyde over oxides loaded zeolites 175
aldopentoses
Kinetics and mechanism of the heptamolybdate ion-catalyzed C(2) epimerization of D-xylose and D-lyxose 365
alkali impregnation
Preparation and Fischer–Tropsch reaction of highly-reduced cobalt clusters in cobalt-exchanged zeolite 199
1,2-alkene oxides
Rearrangement reactions of 1,2-alkene oxides over zeolites Improved selectivity in aldehydes by the use of silanated offretites 297
alkyne
Cocyclotrimerization of hex-1-yne and acetonitrile with CpCoCOD as catalyst 75
alkyne polymerization
Influence of temperature and phenol on the polymerization of phenylacetylene catalyzed by $Mo(CO)_6$ 7
allylation
Novel phosphine–palladium complex-catalysed regioselective allylation of a Grignard reagent 1
α-alumina
Synthesis of acrolein by vapor phase condensation of formaldehyde and acetaldehyde over oxides loaded zeolites 175
Elucidation of the mechanism of elimination reactions with deuterium-labelled compounds 311
ammonia
Effect of temperature on photoassisted reduction of CO_2 with preadsorbed ammonia on silica-supported iron 47
arenes
UV–Vis and ESR spectroscopic studies of the adsorption of arenes on the heteropoly acid $H_3PW_{12}O_{40}$ 21
1-aryl-3-hydroxyperhydroazepines
Ruthenium-catalyzed synthesis of 1-substituted-3-hydroxyperhydroazepines 39
asymmetric cross-coupling
Stereochemistry in cross-coupling reaction of crotyl alcohol derivatives and arylmagnesium bromides on *trans*-bis-1*S*,2*S*- and *trans*-bis-1*R*,2*R*-(diphenylphosphino)cyclopentanenickel dibromide 55
Baeyer–Villiger oxidation
Baeyer–Villiger oxidation of ketones by peroxomolybdenum complexes: a revisit 13
boron
Catalysis by the Rh/B system Part 2. Highly regioselective vapour phase hydroformylation of propene at atmospheric pressure on Rh/B on silica and silica-alumina 243
butane
Effect of cation reducibility on oxidative dehydrogenation of butane on orthovanadates 265
carbon dioxide
Effect of temperature on photoassisted re-

duction of CO_2 with preadsorbed ammonia on silica-supported iron 47
carbon monoxide
Effect of temperature on photoassisted reduction of CO_2 with preadsorbed ammonia on silica-supported iron 47
Interaction of carbon monoxide with supported nickel catalysts 187
carbon monoxide adsorption
Infrared study of the formation of $Rh^+(CO)_2$ over $RhCl_3/SiO_2$ and its reactivity with NO 323
catalyst stability
Decomposition of 1-octanol on the spinel system $Ga_{1-x}Fe_xCuMnO_4$ 285
chiral nickel complexes
Stereochemistry in cross-coupling reaction of crotyl alcohol derivatives and arylmagnesium bromides on *trans*-bis-1*S*,2*S*- and *trans*-bis-1*R*,2*R*-(diphenylphosphino)cyclopentanenickel dibromide 55
cobalt clusters
Preparation and Fischer–Tropsch reaction of highly-reduced cobalt clusters in cobalt-exchanged zeolite 199
cobalt complexes
Cocyclotrimerization of hex-1-yne and acetonitrile with CpCoCOD as catalyst 75
coercive force
Decomposition of 1-octanol on the spinel system $Ga_{1-x}Fe_xCuMnO_4$ 285
condensation
Synthesis of acrolein by vapor phase condensation of formaldehyde and acetaldehyde over oxides loaded zeolites 175
crotyl alcohol
Stereochemistry in cross-coupling reaction of crotyl alcohol derivatives and arylmagnesium bromides on *trans*-bis-1*S*,2*S*- and *trans*-bis-1*R*,2*R*-(diphenylphosphino)cyclopentanenickel dibromide 55
cyclohexyl hydroperoxide
Anchored manganese and ruthenium porphyrins as catalysts in the decomposition of cyclohexyl hydroperoxide 153
cyclotrimerization
Cocyclotrimerization of hex-1-yne and acetonitrile with CpCoCOD as catalyst 75
decomposition
Anchored manganese and ruthenium porphyrins as catalysts in the decomposition of cyclohexyl hydroperoxide 153
desorption
Interaction of carbon monoxide with supported nickel catalysts 187
deuterium
Elucidation of the mechanism of elimination reactions with deuterium-labelled compounds 311
Diels–Alder reaction
Relationship between solvent effects and catalyst activation method in a clay-catalysed Diels–Alder reaction 305
electrical conductivity
Decomposition of 1-octanol on the spinel system $Ga_{1-x}Fe_xCuMnO_4$ 285
electrocatalysis
Electrochemical regeneration of nicotinamide cofactor using a polypyrrole rhodium bis-terpyridine modified electrode 133
electron-releasing substituents
Electronic effect of substituents on the hydrodesulfurization of ring substituted benzenethiols 229
elimination reactions
Elucidation of the mechanism of elimination reactions with deuterium-labelled compounds 311
enzyme kinetics
Kinetic characterization of a model for zymogen activation: an experimental design and kinetic data analysis 347
epimerization
Kinetics and mechanism of the heptamolybdate ion-catalyzed C(2) epimerization of D-xylose and D-lyxose 365
epoxide rearrangement
Rearrangement reactions of 1,2-alkene oxides over zeolites Improved selectivity in aldehydes by the use of silanated offretites 297
ESR spectroscopy
UV–Vis and ESR spectroscopic studies of the adsorption of arenes on the heteropoly acid $H_3PW_{12}O_{40}$ 21
experimental design
Kinetic characterization of a model for

zymogen activation: an experimental design and kinetic data analysis 347
Fischer–Tropsch reaction
Preparation and Fischer–Tropsch reaction of highly-reduced cobalt clusters in cobalt-exchanged zeolite 199
formaldehyde
Synthesis of acrolein by vapor phase condensation of formaldehyde and acetaldehyde over oxides loaded zeolites 175
frontier electron density
Electronic effect of substituents on the hydrodesulfurization of ring substituted benzenethiols 229
Grignard reagents
Novel phosphine–palladium complex-catalysed regioselective allylation of a Grignard reagent 1
Stereochemistry in cross-coupling reaction of crotyl alcohol derivatives and arylmagnesium bromides on *trans*-bis-1*S*,2*S*- and *trans*-bis-1*R*,2*R*-(diphenylphosphino)cyclopentanenickel dibromide 55
heteropoly acids
UV–Vis and ESR spectroscopic studies of the adsorption of arenes on the heteropoly acid $H_3PW_{12}O_{40}$ 21
1,2,6-hexanetriol
Ruthenium-catalyzed synthesis of 1-substituted-3-hydroxyperhydroazepines 39
1hexene
Decomposition and reducibility of rhodium clay catalyst precursors 165
homogeneous catalysis
Influence of temperature and phenol on the polymerization of phenylacetylene catalyzed by $Mo(CO)_6$ 7
homogeneous catalysts
Homogeneous catalyses of mixed-valent octanuclear platinum complexes in photochemical hydrogen production from water 141
hydrodesulphurization
Electronic effect of substituents on the hydrodesulfurization of ring substituted benzenethiols 229
hydroformylation
Catalysis by the Rh/B system Part 2. Highly regioselective vapour phase hydroformylation of propene at atmospheric pressure on Rh/B on silica and silica-alumina 243
hydrogen
Homogeneous catalyses of mixed-valent octanuclear platinum complexes in photochemical hydrogen production from water 141
hydrogenation
Selective hydrogenation of α,β-unsaturated aldehydes catalyzed by supported aqueous-phase catalysts and supported homogeneous catalysts 117
Decomposition and reducibility of rhodium clay catalyst precursors 165
hydrogen transfer
Ruthenium-catalyzed synthesis of 1-substituted-3-hydroxyperhydroazepines 39
infrared spectroscopy
Infrared study of the formation of $Rh^+(CO)_2$ over $RhCl_3/SiO_2$ and its reactivity with NO 323
iridium
Selective hydrogenation of α,β-unsaturated aldehydes catalyzed by supported aqueous-phase catalysts and supported homogeneous catalysts 117
iron
Effect of temperature on photoassisted reduction of CO_2 with preadsorbed ammonia on silica-supported iron 47
ketones
Baeyer–Villiger oxidation of ketones by peroxomolybdenum complexes: a revisit 13
kinetic data analysis
Kinetic characterization of a model for zymogen activation: an experimental design and kinetic data analysis 347
kinetics
Kinetics and mechanism of the heptamolybdate ion-catalyzed C(2) epimerization of D-xylose and D-lyxose 365
manganese
Anchored manganese and ruthenium porphyrins as catalysts in the decomposition of cyclohexyl hydroperoxide 153
methyltitanium chlorides
Theoretical study of regioselectivity in propylene insertion into Ti–methyl bonds of methyltitanium chlorides: analysis by paired interacting orbitals 95

modified electrodes
Electrochemical regeneration of nicotinamide cofactor using a polypyrrole rhodium bis-terpyridine modified electrode 133
molybdenum
Influence of temperature and phenol on the polymerization of phenylacetylene catalyzed by $Mo(CO)_6$ 7
Baeyer–Villiger oxidation of ketones by peroxomolybdenum complexes: a revisit 13
Kinetics and mechanism of the heptamolybdate ion-catalyzed C(2) epimerization of D-xylose and D-lyxose 365
montmorillonite
Relationship between solvent effects and catalyst activation method in a clay-catalysed Diels–Alder reaction 305
Mössbauer spectroscopy
Decomposition of 1-octanol on the spinel system $Ga_{1-x}Fe_xCuMnO_4$ 285
N-heterocyclization
Ruthenium-catalyzed synthesis of 1-substituted-3-hydroxyperhydroazepines 39
nickel
Interaction of carbon monoxide with supported nickel catalysts 187
nicotinamide adenine dinucleotide
Electrochemical regeneration of nicotinamide cofactor using a polypyrrole rhodium bis-terpyridine modified electrode 133
nitrogen oxide
Infrared study of the formation of $Rh^+(CO)_2$ over $RhCl_3/SiO_2$ and its reactivity with NO 323
orthovanadates
Effect of cation reducibility on oxidative dehydrogenation of butane on orthovanadates 265
oxidation
Ruthenium(II)-catalyzed oxidation of alcohols by persulfate 85
oxidation(butane
Effect of cation reducibility on oxidative dehydrogenation of butane on orthovanadates 265
oxidative dehydrogenation.
Effect of cation reducibility on oxidative dehydrogenation of butane on orthovanadates 265
paired interacting orbitals
Theoretical study of regioselectivity in propylene insertion into Ti–methyl bonds of methyltitanium chlorides: analysis by paired interacting orbitals 95
palladium
Novel phosphine–palladium complex-catalysed regioselective allylation of a Grignard reagent 1
palygorskite
Decomposition and reducibility of rhodium clay catalyst precursors 165
peroxomolybdenum complexes.
Baeyer–Villiger oxidation of ketones by peroxomolybdenum complexes: a revisit 13
persulphate
Ruthenium(II)-catalyzed oxidation of alcohols by persulfate 85
phenol
Influence of temperature and phenol on the polymerization of phenylacetylene catalyzed by $Mo(CO)_6$ 7
phenylacetylene.
Influence of temperature and phenol on the polymerization of phenylacetylene catalyzed by $Mo(CO)_6$ 7
phosphine–palladium complexes
Novel phosphine–palladium complex-catalysed regioselective allylation of a Grignard reagent 1
phosphorous ligand.
Ruthenium-catalyzed synthesis of 1-substituted-3-hydroxyperhydroazepines 39
phosphorus
UV–Vis and ESR spectroscopic studies of the adsorption of arenes on the heteropoly acid $H_3PW_{12}O_{40}$ 21
photoassisted reduction
Effect of temperature on photoassisted reduction of CO_2 with preadsorbed ammonia on silica-supported iron 47
photocatalytic dehydrogenation
Thermo- and photocatalytic dehydrogenation of 2-propanol with $[RuL(SnCl_3)_5]^{4-}$ ($L=Cl^-$ or $SnCl_3^-$) complexes 29
photochemical activation
Cocyclotrimerization of hex-1-yne and acetonitrile with CpCoCOD as catalyst 75
photochemical decomposition

Homogeneous catalyses of mixed-valent octanuclear platinum complexes in photochemical hydrogen production from water 141
platinum complexes
Homogeneous catalyses of mixed-valent octanuclear platinum complexes in photochemical hydrogen production from water 141
polypyrrole
Electrochemical regeneration of nicotinamide cofactor using a polypyrrole rhodium bis-terpyridine modified electrode 133
polystyrene
Anchored manganese and ruthenium porphyrins as catalysts in the decomposition of cyclohexyl hydroperoxide 153
porphyrins
Anchored manganese and ruthenium porphyrins as catalysts in the decomposition of cyclohexyl hydroperoxide 153
2-propanol.
Thermo- and photocatalytic dehydrogenation of 2-propanol with $[RuL(SnCl_3)_5]^{4-}$ ($L=Cl^-$ or $SnCl_3^-$) complexes 29
propene
Catalysis by the Rh/B system Part 2. Highly regioselective vapour phase hydroformylation of propene at atmospheric pressure on Rh/B on silica and silica-alumina 243
propylene
Theoretical study of regioselectivity in propylene insertion into Ti–methyl bonds of methyltitanium chlorides: analysis by paired interacting orbitals 95
proteolysis
Kinetic characterization of a model for zymogen activation: an experimental design and kinetic data analysis 347
promoting effect
Electronic effect of substituents on the hydrodesulfurization of ring substituted benzenethiols 229
pyridine derivatives.
Cocyclotrimerization of hex-1-yne and acetonitrile with CpCoCOD as catalyst 75
α-pyridonate ligands
Homogeneous catalyses of mixed-valent octanuclear platinum complexes in photochemical hydrogen production from water 141
α-pyrrolidonate ligands
Homogeneous catalyses of mixed-valent octanuclear platinum complexes in photochemical hydrogen production from water 141
reaction mechanism.
Kinetics and mechanism of the heptamolybdate ion-catalyzed C(2) epimerization of D-xylose and D-lyxose 365
reaction mechanisms.
Elucidation of the mechanism of elimination reactions with deuterium-labelled compounds 311
regioselectivity
Theoretical study of regioselectivity in propylene insertion into Ti–methyl bonds of methyltitanium chlorides: analysis by paired interacting orbitals 95
rhodium
Electrochemical regeneration of nicotinamide cofactor using a polypyrrole rhodium bis-terpyridine modified electrode 133
Decomposition and reducibility of rhodium clay catalyst precursors 165
Catalysis by the Rh/B system Part 2. Highly regioselective vapour phase hydroformylation of propene at atmospheric pressure on Rh/B on silica and silica-alumina 243
Infrared study of the formation of $Rh^+(CO)_2$ over $RhCl_3/SiO_2$ and its reactivity with NO 323
$RuCl_2(PPh_3)_3$
Ruthenium-catalyzed synthesis of 1-substituted-3-hydroxyperhydroazepines 39
ruthenium.
Ruthenium(II)-catalyzed oxidation of alcohols by persulfate 85
Selective hydrogenation of α,β-unsaturated aldehydes catalyzed by supported aqueous-phase catalysts and supported homogeneous catalysts 117
ruthenium
Anchored manganese and ruthenium porphyrins as catalysts in the decomposition of cyclohexyl hydroperoxide 153
silanated zeolites.
Rearrangement reactions of 1,2-alkene ox-

ides over zeolites Improved selectivity in aldehydes by the use of silanated offretites 297
silica
Effect of temperature on photoassisted reduction of CO_2 with preadsorbed ammonia on silica-supported iron 47
Anchored manganese and ruthenium porphyrins as catalysts in the decomposition of cyclohexyl hydroperoxide 153
Infrared study of the formation of $Rh^+(CO)_2$ over $RhCl_3/SiO_2$ and its reactivity with NO 323
silica-alumina.
Catalysis by the Rh/B system Part 2. Highly regioselective vapour phase hydroformylation of propene at atmospheric pressure on Rh/B on silica and silica-alumina 243
silica gel
Synthesis of acrolein by vapor phase condensation of formaldehyde and acetaldehyde over oxides loaded zeolites 175
siloxanes.
Novel phosphine-palladium complex-catalysed regioselective allylation of a Grignard reagent 1
solvent effects
Relationship between solvent effects and catalyst activation method in a clay-catalysed Diels-Alder reaction 305
spinel.
Decomposition of 1-octanol on the spinel system $Ga_{1-x}Fe_xCuMnO_4$ 285
stereochemistry.
Stereochemistry in cross-coupling reaction of crotyl alcohol derivatives and arylmagnesium bromides on *trans*-bis-1*S*,2*S*- and *trans*-bis-1*R*,2*R*-(diphenylphosphino)cyclopentanenickel dibromide 55
substituted benezenethiols.
Electronic effect of substituents on the hydrodesulfurization of ring substituted benzenethiols 229
supported catalyst
Selective hydrogenation of α,β-unsaturated aldehydes catalyzed by supported aqueous-phase catalysts and supported homogeneous catalysts 117
supported catalysts.
Anchored manganese and ruthenium porphyrins as catalysts in the decomposition of cyclohexyl hydroperoxide 153
Decomposition and reducibility of rhodium clay catalyst precursors 165
Interaction of carbon monoxide with supported nickel catalysts 187
supported catalysts.
Effect of temperature on photoassisted reduction of CO_2 with preadsorbed ammonia on silica-supported iron 47
terpyridine derrivatives.
Electrochemical regeneration of nicotinamide cofactor using a polypyrrole rhodium bis-terpyridine modified electrode 133
thermo-dehydrogenation
Thermo- and photocatalytic dehydrogenation of 2-propanol with $[RuL(SnCl_3)_5]^{4-}$ (L=Cl^- or $SnCl_3^-$) complexes 29
titanium
Theoretical study of regioselectivity in propylene insertion into Ti-methyl bonds of methyltitanium chlorides: analysis by paired interacting orbitals 95
12-tungstophosphoric acid
UV-Vis and ESR spectroscopic studies of the adsorption of arenes on the heteropoly acid $H_3PW_{12}O_{40}$ 21
α,β-unsaturated aldehydes.
Selective hydrogenation of α,β-unsaturated aldehydes catalyzed by supported aqueous-phase catalysts and supported homogeneous catalysts 117
UV-Vis spectra roscopy
UV-Vis and ESR spectroscopic studies of the adsorption of arenes on the heteropoly acid $H_3PW_{12}O_{40}$ 21
water.
Homogeneous catalyses of mixed-valent octanuclear platinum complexes in photochemical hydrogen production from water 141
zeolite.
Preparation and Fischer-Tropsch reaction of highly-reduced cobalt clusters in cobalt-exchanged zeolite 199
zeolites.
Synthesis of acrolein by vapor phase condensation of formaldehyde and acetaldehyde over oxides loaded zeolites 175

Ziegler polymerization.
Theoretical study of regioselectivity in propylene insertion into Ti–methyl bonds of methyltitanium chlorides: analysis by paired interacting orbitals 95
zinc.
Relationship between solvent effects and catalyst activation method in a clay-catalysed Diels–Alder reaction 305
zymogen activation.
Kinetic characterization of a model for zymogen activation: an experimental design and kinetic data analysis 347
